

CREW Tampa Bay Dues Increase Policy

The purpose of this policy is to document a process for the adjustment of chapter dues.

CREW Network Dues

CREW Network dues are reviewed every three years in tandem with the strategic planning review, thus chapter leaders should anticipate the possibility of a dues increase every third year. Increases will be less than 10% and are subject to approval by the Council of Delegates one year prior to the effective date of increase. The next increase will be considered in 2023 and voted upon at the fall council meeting, affecting dues for the 2025 term.

Chapter Dues

The chapter will index the chapter dues for the affected term up to 10% in alignment with the increase from CREW Network when they pass through an increase.
