

Jeanette Flory-Sagan, Founder of Cereus Asset Management, is a respected commercial real estate leader whose CREW Network journey reflects a deep commitment to service, mentorship, and advancing women across the industry. With more than 25 years of experience in commercial real estate, she is known for her strategic asset management focus, helping owners and investors create value, minimize risk, and execute business plans across all property types in most major U.S. markets.

Over nearly three decades of involvement with CREW, she has contributed at both the chapter and global levels, including membership and leadership roles with four chapters, including CREW Seattle. She also served on the CREW Network Global Board of Directors in 2017 and 2018. Jeanette has further invested in future leaders as an instructor for CREW Seattle's award-winning Leadership Series, a mentor in the CREW Network Leadership Certificate program, and a convention contributor through first-time attendee programming and educational sessions. Her dedication to giving back is equally evident in her philanthropic leadership, including service as CREW Network Foundation Chair in 2021 and longstanding support for initiatives that open doors for women and students pursuing careers in commercial real estate. In 2021, Jeanette was recognized as a CREW Network Distinguished Leader. This honor recognizes influential women in the commercial real estate industry who are thought leaders, agents of change, and exceptional leaders who help pave the way for those coming up behind them.

Throughout her career, Jeanette has remained focused on one guiding principle: to leave the industry better than she found it by lifting others, building stronger communities, and creating more opportunities for the next generation.
